practical cybersecurity  
skills across multiple  
domains

# ABOUT US

SafeNet: We focus on digital security activities, engagements, and practical education in cybersecurity, IoT, and other tech-related areas.

We build a collaborative environment where members gain the skills to safeguard interconnected systems and digital devices.

CYSEC-CON 2026 is a hands-on cybersecurity conference designed to equip Nigerians with practical cybersecurity skills to protect digital assets, create career opportunities, and stay globally competitive.

The goal is to provide a practical, immersive learning experience, combining:

Keynote inspiration, Hands-on cybersecurity labs and exercises, Panel discussions with industry experts, Community networking

# Audience Profile

CYSEC-CON brings together a diverse audience, including industry leaders, seasoned professionals, junior cybersecurity practitioners, developers, IT experts, tech enthusiasts, entrepreneurs, and computer science students. The event is designed for all levels and includes hands-on training and panel sessions with industry leaders who share insights and practical skills tailored to cybersecurity challenges in Nigeria.

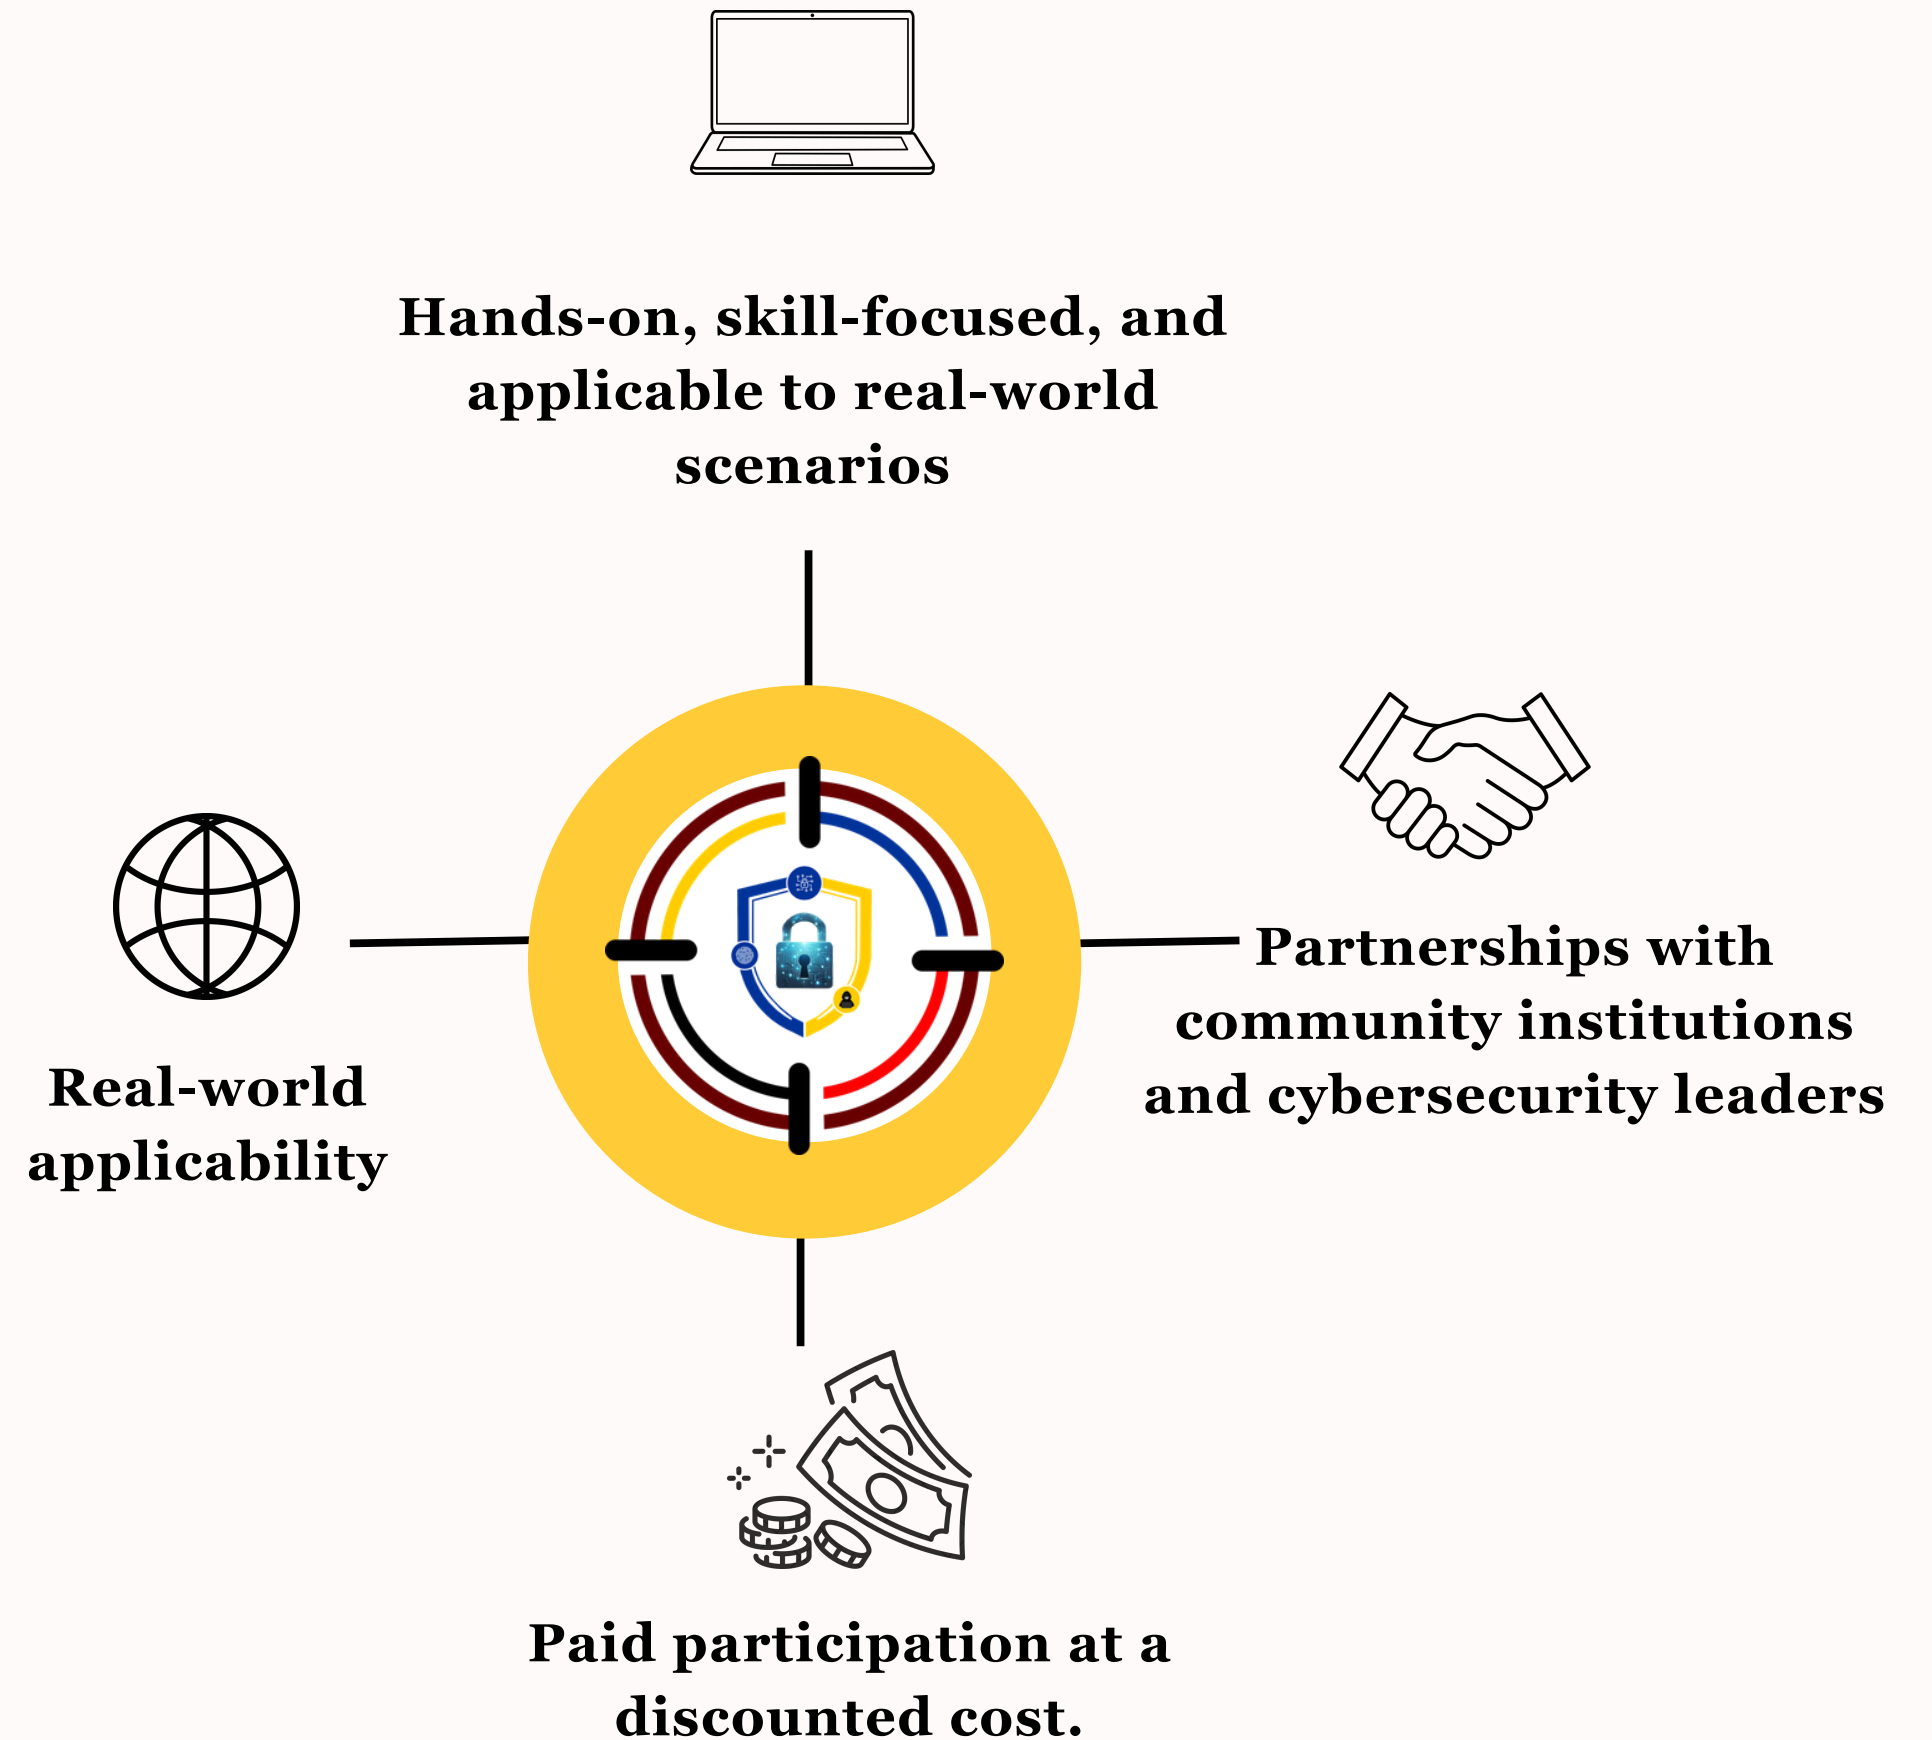

From business owners and managers seeking a behind-the-scenes understanding of security to tech enthusiasts and students eager to explore the field, CYSEC-CON attracts individuals with an interest in and commitment to advancing cybersecurity knowledge and practices.

# CYSEC-CON 2.0

**A Practical Cybersecurity Event  
targeted at entry-level, mid-level, and  
senior-level professionals across  
multiple domains**

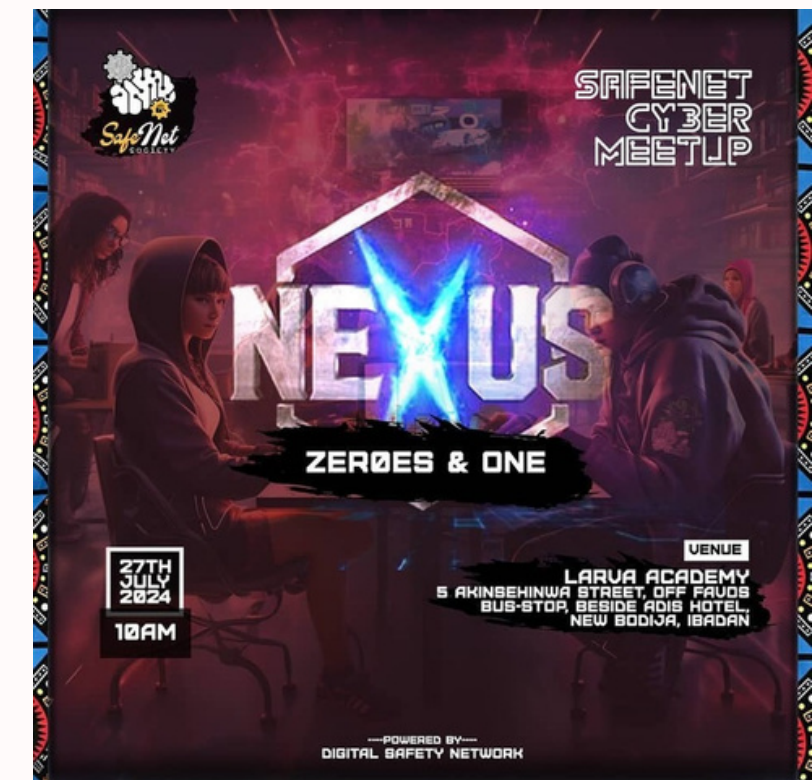

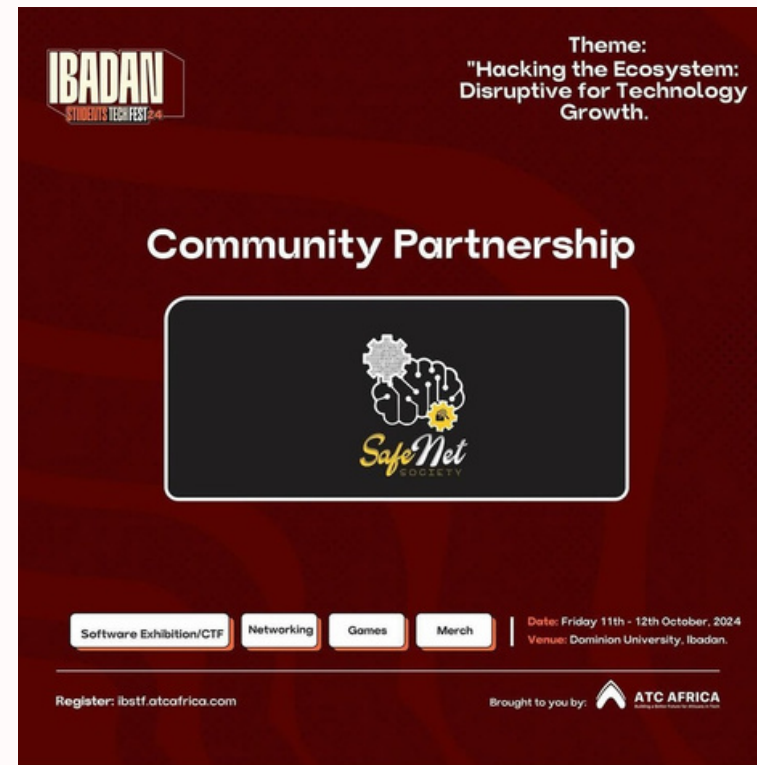

**Gamified Multi-Village  
Real World Simulation**
